MARTIAN BLUE | Services ▼ | Solutions ▼ | Industries ▼ | Cyber Education | Resources ▼ | About Us | Contact Us | **Get Started** →

1. Services ▼

In this drop down we have six major service areas:

- Antiphishing & Cyber Frauds
- Data Leakage Detection & Prevention
- Digital Payments & Identity
- Secure Software Development
- Education & Upskilling
- Tactical Cyber Security & AI

2. Solutions ▼

This can organize services around customer problems rather than technical service names:

- Phishing Protection
- Security Awareness
- Data Protection
- Application Security
- Identity & Access Security
- Threat Detection & Response
- AI-Powered Cyber Defense
- Security Assessments

This gives visitors another way to find what they need.

3. Industries ▼

Since cybersecurity requirements differ by sector:

- Banking & FinTech
- Healthcare
- Education
- Government & Public Sector
- E-commerce
- Technology & SaaS
- Enterprises
- Startups

Only include sectors Martian Blue actually targets or intends to target.

4. Cyber Education ▼

For students, professionals, and organizations looking to build practical cybersecurity skills:

Programs

- Cyber Security Fundamentals
- Ethical Hacking & Penetration Testing
- SOC Analyst & Threat Hunting

Learning

- Learning Paths
- Upcoming Batches
- Certifications
- Hands-on Labs

Training

- Corporate Training
- Custom Cybersecurity Training

Main CTA

- [Explore Cyber Education →](#)

5. Resources ▼

Similar to Hoxhunt's Resources, but adapted to Martian Blue:

- Cybersecurity Insights
- Blog
- Case Studies
- Security Guides
- Research
- Webinars
- Masterclasses
- Events

- FAQs
- Cybersecurity Glossary
- Downloads

6. About Us

Could contain:

- About Martian Blue
- Our Mission
- Our Team
- Why Martian Blue
- Partners
- Careers

7. Contact Us

A simple dedicated contact/consultation page for:

- General enquiries
- Cybersecurity service enquiries
- Training enquiries
- Partnerships
- Other business enquiries

8. Get Started →

Primary CTA that can direct users toward the appropriate path:

Hero Section

Purpose: Immediately communicate what Martian Blue does and give visitors a clear action.

THE #1 **RATED** HUMAN RISK MANAGEMENT PLATFORM

Measurably reduce human cyber risk, at scale

Automate the busywork of security awareness and phishing training with an AI-powered platform that automatically delivers personalized, gamified training that employees love.

Book a demo

See how it works

Trusted by thousands of companies

MARTIAN BLUE CYBER DEFENSE

AI-Powered Cybersecurity **for** a Safer Digital Future

Protect your organization, people, applications, identities, **and** critical data **with** proactive cybersecurity solutions built **for** evolving digital threats.

[Get Started →]

[Explore Services]

UI/UX

- Dark navy / deep blue background
- Martian Blue branding
- Large bold headline
- Short 2–3 line description
- Primary CTA: **Get Started** →
- Secondary CTA: **Explore Services**
- Animated cybersecurity/network visualization
- Subtle glowing blue/cyan particles
- Threat detection / shield / network graphics
- Avoid excessive animations that affect performance

Trust / Security Capabilities Strip

Immediately below the hero.

PROTECT • DETECT • RESPOND • PREVENT

AI-POWERED DEFENSE	THREAT INTELLIGENCE
DATA PROTECTION	SECURITY AWARENESS
SECURE DEVELOPMENT	DIGITAL IDENTITY

This gives visitors an immediate understanding of Martian Blue's capabilities without requiring them to scroll through the entire website.

Core Services Section

This should be one of the **major sections of the homepage**.

Comprehensive Cybersecurity Solutions

From human-focused security awareness to AI-powered cyber defense, Martian Blue helps organizations protect their people, applications, data, and digital infrastructure.

Then use the **six service cards** we discussed.

01 — Antiphishing & Cyber Frauds

AI-powered defense against phishing attacks, social engineering, and cyber fraud targeting your organization.

- Phishing detection & prevention
- Threat intelligence
- Phishing simulations
- Security awareness integration
- Incident response support
- Credential-leak monitoring

02 — Data Leakage Detection & Prevention

Protect sensitive information from unauthorized access, exposure, and exfiltration across endpoints, cloud, and network environments.

- Data classification
- Data loss prevention
- Endpoint protection
- Cloud data protection
- Network monitoring
- Policy enforcement
- Compliance support

03 — Digital Payments & Identity

Secure digital transactions and identities with strong authentication, fraud detection, and identity verification technologies.

- Multi-factor authentication
- Identity verification
- Transaction monitoring
- Fraud detection
- Payment security
- Authentication security

04 — Secure Software Development

Build secure applications by integrating security throughout the software development lifecycle.

- Secure SDLC
- Code security reviews
- SAST & DAST
- DevSecOps
- Vulnerability assessment
- Penetration testing
- Security architecture review

05 — Education & Upskilling

Develop practical cybersecurity skills through training, workshops, labs, and security awareness programs.

- Cybersecurity awareness
- Ethical hacking workshops
- Certification preparation
- Hands-on security labs
- CTF competitions
- Customized training
- Corporate security training

06 — Tactical Cyber Security & AI

AI-powered cybersecurity capabilities for advanced threat detection, analysis, and specialized security operations.

- Threat hunting
- AI-assisted detection
- Behavioral analytics
- Anomaly detection
- SOC support

- Threat intelligence
- Custom security tooling

“How Martian Blue Protects You”

This can take inspiration from the visual storytelling used in the Hoxhunt screenshots.

Instead of simply listing features, show the **security lifecycle**.

How We Protect Your Digital Environment

01 IDENTIFY

Discover assets, vulnerabilities, identities,
and potential attack surfaces.

↓

02 DETECT

Identify suspicious activity, phishing,
anomalies, and potential threats.

↓

03 ANALYZE

Investigate threats using intelligence,
analytics, and AI-assisted detection.

↓

04 RESPOND

Support rapid incident response,
containment, and remediation.

↓

05 PREVENT

Strengthen controls, security awareness,
applications, and infrastructure.

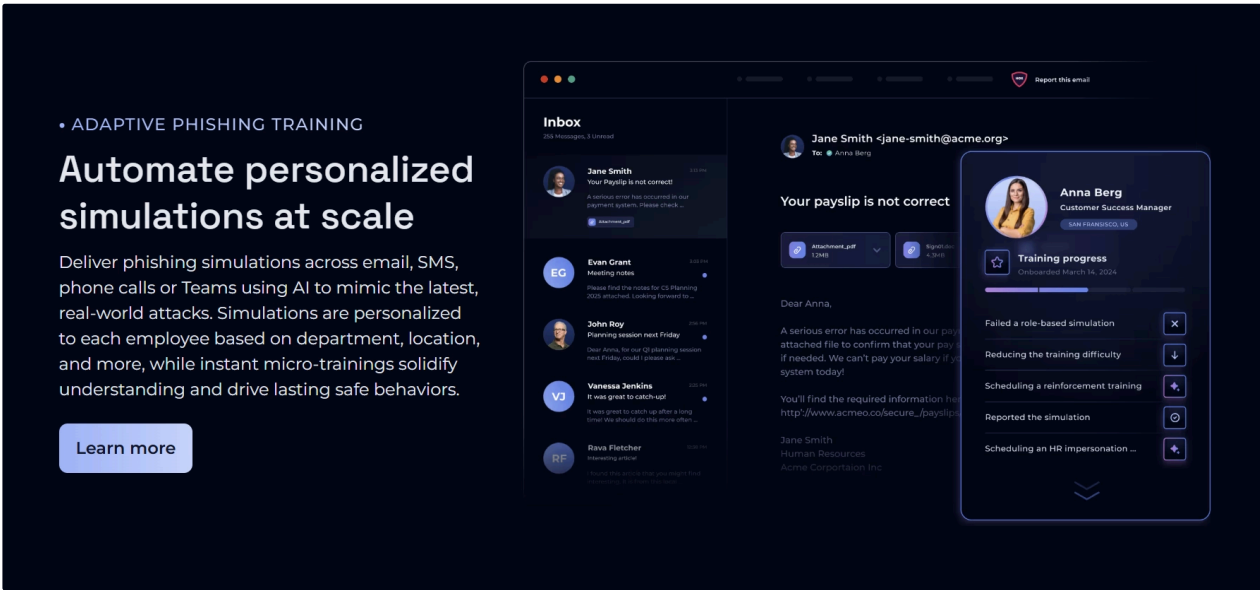

↓

06 IMPROVE

Continuously assess security posture and
improve organizational resilience.

This would make Martian Blue feel like a **full cybersecurity partner**, rather than just a company offering individual services.

Feature Showcase / Product Experience

Section 1

AI-POWERED THREAT DETECTION

Detect threats before they become incidents.

Use AI-assisted analytics and threat intelligence to identify suspicious activity and emerging attacks.

[Explore Threat Detection →]

[Dashboard UI]

Section 2

SECURITY AWARENESS & PHISHING DEFENSE

Turn employees into an active layer of defense.

Run realistic phishing simulations, security awareness training, and employee risk assessments.

[Explore Security Awareness →]

[Training Dashboard]

Section 3

DATA PROTECTION & LEAKAGE PREVENTION

Know where sensitive data is going.

Monitor data movement and identify potential unauthorized access or exfiltration.

[Explore Data Protection →]

[DLP Dashboard]

Section 4

SECURE SOFTWARE DEVELOPMENT

Build security into every stage of development.

Identify vulnerabilities before applications reach production.

[Explore Secure Development →]

[Security Dashboard]

Security Metrics Section

Industries Section

The landing page should show **who Martian Blue serves**.

Cybersecurity for Every Digital Environment

BANKING & FINTECH

Protect transactions, identities, and financial systems.

HEALTHCARE

Protect sensitive information and critical systems.

EDUCATION

Secure institutions, students, staff, and digital infrastructure.

GOVERNMENT

Strengthen critical systems and organizational security.

TECHNOLOGY & SaaS

Build and operate secure applications and platforms.

ENTERPRISE

Protect people, applications, infrastructure, and data.

UI idea:

6 interactive industry cards with icons and subtle hover effects.

Why Martian Blue?

This section should answer:

“Why should an organization work with Martian Blue?”

Why Martian Blue?

01

AI-Driven Security

Leverage AI-assisted analysis and modern security technologies to address evolving threats.

02

End-to-End Protection

Security across people, applications, identities, data, and infrastructure.

03

Proactive Defense

Identify vulnerabilities and risks before they become serious security incidents.

04

Security Expertise

Combine cybersecurity consulting, engineering, training, and threat-focused services.

05

Customized Solutions

Security strategies designed around the organization's technology, risk profile, and requirements.

06

Security by Design

Integrate security into software, infrastructure, operations, and organizational processes.

Case Studies / Success Stories

0:01

Helping security teams and employees join forces

Unlike other security training solutions, Hoxhunt applies gamification and automated personalization at scale to captivate employees, enabling them to truly learn how to combat real, sophisticated threats.

[Read case studies](#)[Read reviews >](#)

For Martian Blue:

Cybersecurity in Action

Explore how organizations strengthen their security posture with Martian Blue.

Testimonials

es
es

“THE SWITCH TO GAMIFICATION WAS REALLY WELL EMBRACED”

The switch to gamification and a carrot approach was really well embraced. And along with the broader education on real-world threats and insights into our own real threat reporting, I think the Hoxhunt training program has been received incredibly well.

Rose Lally
CISO, Altisource

“OVER 10,000 MONTHLY SIMULATIONS”

When I pull my monthly stats for reporting, part of what I'm pulling is how many TOTAL simulations went to just our active employees, and it's always over 10,000 and that's a shocking number.

Lisa Kubicki
Director, Trust & Security Training & Awareness, Docusign

“REALLY

We've seen experience and make recipient drives true importance

Cyber Education

Most Popular

BEGINNER · 4 Weeks

Cyber Security Fundamentals

Perfect for students and professionals with no prior cybersecurity experience. Build a strong foundation in security concepts.

WHAT YOU'LL LEARN

- ▶ Introduction to Cybersecurity & CIA Triad
- ▶ Networking Basics & Protocols
- ▶ Linux & Windows Security Essentials
- ▶ Cryptography & PKI Fundamentals
- ▶ OWASP Top 10 Overview
- ▶ Career Roadmap in Cybersecurity

OUTCOMES

- ✓ Understand core security concepts
- ✓ Set up a personal security lab
- ✓ Earn MartianBlue Foundation Certificate

₹4,999

Enroll Now →

Recommended

INTERMEDIATE · 6 Weeks

Ethical Hacking & Penetration Testing

Hands-on offensive security training covering real-world attack techniques, tools, and methodologies.

WHAT YOU'LL LEARN

- ▶ Reconnaissance & OSINT Techniques
- ▶ Network Scanning with Nmap & Masscan
- ▶ Web Application Hacking (Burp Suite)
- ▶ Exploitation with Metasploit Framework
- ▶ Post-Exploitation & Privilege Escalation
- ▶ Report Writing & Responsible Disclosure

OUTCOMES

- ✓ Conduct basic penetration tests
- ✓ Use industry-standard hacking tools
- ✓ Earn MartianBlue Ethical Hacker Certificate

₹6,999

Enroll Now →

Expert Track

ADVANCED · 8 Weeks

SOC Analyst & Threat Hunting

Advanced blue team training for aspiring SOC analysts covering SIEM, threat hunting, and incident response.

WHAT YOU'LL LEARN

- ▶ SIEM Operations (Splunk & Wazuh)
- ▶ Threat Intelligence & MITRE ATT&CK
- ▶ Digital Forensics & Memory Analysis
- ▶ Malware Analysis (Static & Dynamic)
- ▶ Incident Response Playbooks & SOAR
- ▶ Zero Trust Architecture & Cloud Security

OUTCOMES

- ✓ Operate enterprise SIEM platforms
- ✓ Conduct threat hunting operations
- ✓ Earn MartianBlue SOC Analyst Certificate

₹12,999

Our mission

Hoxhunt helps organizations turn employees from their greatest risk into their best defense.

By integrating effective anti-social engineering tactics into a holistic behavioral framework for human risk management, we can unite security teams and employees to work together as an unbeatable cyber defense.

We pioneered an adaptive training experience that people love for its gamified, user-centric design. Earning unparalleled engagement, Hoxhunt motivates meaningful behavior change and a scalable culture shift that reduces risk across the spectrum of human cyber behavior.

We are relentless about driving the transformation of Human Risk Management from the outdated, one-size-fits-all SAT model.

Changing cybersecurity behavior since 2016

Hoxhunt quickly ascended from scrappy startup, to G2's SAT category leader, to award-winning pioneers of an emerging category: Security Behavior Change and Human Risk Management.

Join our mission

2016

Hoxhunt founded

2018

\$3 million Series A with Dawn Capital, with participation with Icebreaker

2019

Enterprise customer wins: DocuSign, Airbus, AES, Schindler, Nokia

2021

Deloitte Fast50: 4284% growth over four years

2022

Series B: \$40 million with New York-based Level Equity Management

2023

Named a Gartner Representative Provider of the SBCP category, G2 category leader

2024

Multiple awards: CSO50 with AES; Globee Cyber Awards; Trust Radius; InfoSec Awards

2025

Enterprise Grid Leader, G2 | Customer's Choice Vendor, Gartner | Competitive Strategy Leadership, Frost & Sullivan
